

PRE-WOUND TOROID ORDER FORM

You can order a complete set of prefabricated toroids for your kit wound and tinned to OHR specifications. You *do not* need to send your cores and wire, but a discount is available for those who do. Toroid sets are usually shipped from inventory within 1 business day.

Send this completed form, along with payment, to the address listed below. For convenience, payment may be sent via PayPal by visiting www.paypal.com and following the on-screen instructions using the E-Mail address given below. Checks and money orders are also accepted. International customers must contact me for a quote on shipping, typically \$8-\$12 depending on destination. Orders sent airmail to Canada cost the same as domestic service.

<input type="checkbox"/> OHR500A: \$68.50 or \$62.00 with your kit supplied toroidal cores
<input type="checkbox"/> OHR100A 40M: \$21.50 or \$19.50 with your kit supplied toroidal cores

NOTE: I will replace, at my expense, any parts that arrive damaged or which are not wound according to OHR published specifications. I am an independent contractor offering this service directly to OHR customers. Milestone Technologies, Inc. does not warranty any toroid work or process any toroid orders.

Thank you for using my service!
